

# **A.R.K. RAMOS**

MANUFACTURING COMPANY, INC.

*manufacturers of cast metal letters & plaques/architectural graphics/complete signing systems*

December 22, 2008

Attention: To Whom This May Concern  
SUBJECT: Recycled Content in Products/LEED Spec

Gentlemen;

A.R.K. Ramos cast products are among the highest quality products found in today's signage market. We strive to make our products eco friendly and compliant with the standard set forth in this new greener industry.

As part of our efforts we are using the following alloys for given products which include recycled contents as listed below:

**Cast aluminum plaques and letters Alloy 356 Prime Spec  
100% pre-consumer recycled content**

**Cast bronze plaques and letters Alloy Federalloy 89833  
90% pre-consumer recycled content**

**Cast brass plaques and letters Alloy 865  
90% pre-consumer recycled content**

It is our hope that this addresses any concerns regarding our products and our customer's intent to provide as specified. If there are additional concerns please contact us at 1-800-725-7266.

Sincerely

David Wommer  
President
